| Pending trades receivable ¹ | | 743 | 4,840 |
| Pending trades payable ¹ | | 7,417 | 11,411 |
| Net investments | \$ | 699,651 | \$ 632,599 |

¹ Consists of all the financial assets and liabilities held by both Canada Pension Plan Investment Board and its investment holding subsidiaries. In contrast, the Condensed Interim Consolidated Balance Sheet presents all financial assets and liabilities held by investment holding subsidiaries as investments. This results in a difference of \$5,148 million (March 31, 2024 - \$6,654 million), \$6,375 million (March 31, 2024 - \$7,337 million), \$989 million (March 31, 2024 - \$795 million), \$25 million (March 31, 2024 - \$239 million) and \$5 million (March 31, 2024 - \$579 million) as compared to Investments, Investment liabilities, Cash and cash equivalents, Pending trades receivable and Pending trades payable, respectively, as presented in the Condensed Interim Consolidated Balance Sheet. Refer to Notes 1.2, 2.1 and 2.2 for further details.

General information

Canada Pension Plan Investment Board (CPP Investments) was established in December 1997 pursuant to the *Canada Pension Plan Investment Board Act* (CPPIB Act). CPP Investments is responsible for assisting the Canada Pension Plan (CPP) in meeting its obligations to contributors and beneficiaries under the legislation *Canada Pension Plan* (CPP Act).

In December 2016, Royal Assent was given to Bill C-26 titled *An Act to Amend the Canada Pension Plan, the Canada Pension Plan Investment Board Act and the Income Tax Act.* The CPP Act now defines two separate parts of the CPP. The "base CPP" refers to the benefits and contributions established before 2019. The "additional CPP" refers to the additional benefits and additional contributions that began on January 1, 2019. All references to "CPP Investments" mean base CPP and additional CPP together.

The Condensed Interim Consolidated Financial Statements (Interim Financial Statements) provide information on the net assets managed by CPP Investments and do not include the liabilities and other assets of the CPP.

The Interim Financial Statements for the three and nine months ended December 31, 2024 were approved by the Board of Directors and authorized for issue on February 11, 2025.

1. Summary of material accounting policies

1.1 Basis of presentation

The Interim Financial Statements have been prepared in compliance with International Accounting Standard (IAS) 34 *Interim Financial Reporting* and do not include all of the information and disclosures required in the Annual Consolidated Financial Statements. The Interim Financial Statements should be read in conjunction with CPP Investments' 2024 Annual Consolidated Financial Statements included on pages 91 to 135 of CPP Investments' 2024 Annual Report. The Interim Financial Statements follow the same accounting policies and methods as the most recent Annual Consolidated Financial Statements.

1.2 Subsidiaries

CPP Investments qualifies as an investment entity and reports the results of its operations in accordance with International Financial Reporting Standards (IFRS) 10, *Consolidated Financial Statements*. As a consequence, the Interim Financial Statements represent the results of operations of CPP Investments and its wholly owned subsidiaries that were created to provide investment-related services to support its operations. Operating subsidiaries of this nature include those that provide investment advisory services or subsidiaries that were created to provide financing to CPP Investments.

Wholly owned subsidiaries that are managed by CPP Investments to hold investments are referred to herein as investment holding subsidiaries. Such subsidiaries are not consolidated in these Interim Financial Statements but instead are measured and reported at fair value through profit and loss in accordance with IFRS 9, *Financial Instruments* (IFRS 9). Fair value for unconsolidated investment holding subsidiaries is based on the fair value of the underlying investments, investment liabilities and pending trades held by the investment holding subsidiaries can be found in Note 2 while supplementary information on the breakdown of net gains (losses) on investment holding subsidiaries is provided in Note 4.

(Unaudited)

2. Fair value measurement

This note categorizes the fair value of investments and investment liabilities into the following hierarchy based on the level of significant inputs used in the fair value measurement:

- Level 1 Quoted prices in active markets for identical assets or liabilities;
- Level 2 Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and
- Level 3 Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

2.1 Fair value hierarchy of investments and investment liabilities held directly by CPP Investments

¹ Included in Other investment receivables is cash pledged as collateral on derivative transactions of \$376 million (March 31, 2024 - \$1,850 million). Included in Other investment liabilities is cash held as collateral on derivative transactions of \$882 million (March 31, 2024 - \$469 million).

² Cash and cash equivalents, Pending trades receivable and Pending trades payable are measured at amortized cost as it approximates fair value.

³ Consists of cash and cash equivalents used for investment purposes held directly by CPP Investments. In contrast, the Condensed Interim Consolidated Balance Sheet presents cash and cash equivalents used for both investment purposes and operating purposes held directly by CPP Investments, resulting in a difference of \$218 million (March 31, 2024 - \$228 million). For cash and cash equivalents used for investment purposes held by the investment holding subsidiaries, refer to Note 2.2.

2.2 Supplemental information on fair value hierarchy relating to investment holding subsidiaries

The following table presents the fair value hierarchy of the underlying investments and investment liabilities held by investment holding subsidiaries. For further details on the nature and purpose of investment holding subsidiaries, refer to Note 1.2.

| Investments in investment holding subsidiaries | \$ 11,286 | \$ 43,395 | \$ | 296,248 | \$ 350,929 |

¹ Included in Other investment receivables and Other investment liabilities is investment property of \$2,739 million (March 31, 2024 - \$2,916 million) and deferred tax liabilities of \$1,553 million (March 31, 2024 - \$1,446 million) on investments, respectively.

² Cash and cash equivalents, Pending trades receivable and Pending trades payable are recorded at amortized cost, as it approximates fair value.

2.3 Transfers between Level 1 and Level 2

Transfers between levels in the fair value hierarchy are deemed to have occurred at the end of the reporting period. During the nine months ended December 31, 2024, there were no transfers from Level 1 to Level 2 of investments or investment liabilities held directly by CPP Investments (during the year ended March 31, 2024 – nil). During the nine months ended December 31, 2024, there were no transfers from Level 2 to Level 1 of investments or investment liabilities held directly by CPP Investments (during the year ended March 31, 2024 – nil). During the nine months ended December 31, 2024, there were no transfers from Level 2 to Level 1 of investments or investment liabilities held directly by CPP Investments (during the year ended March 31, 2024 - nil). Transfers between Level 1 and Level 2 are driven by the availability of quoted market prices in active markets and valuation techniques using inputs other than quoted prices that are observable.

Purchases relating to investment holding subsidiaries represent capital contributions or net loan funding provided to these subsidiaries. Sales relating 1 to investment holding subsidiaries represent return of capital or payment of dividends and interest from these subsidiaries.

² Includes return of capital and repayments.

³ Included in income (loss). Includes or excludes investments transferred into or out of Level 3, respectively.

During the nine months ended December 31, 2024, there were no transfers of investments from Level 2 to Level 3 (during the year ended March 31, 2024 - \$240 million) and no transfers of investments from Level 3 to Level 2 (during the year ended March 31, 2024 -\$103 million). Transfers into and out of Level 3 are driven by changes in the availability of market observable inputs used to determine fair value. Transfers are deemed to have occurred at the end of the reporting period.

(Unaudited)

2.5 Level 3 – Significant unobservable inputs

The table below presents the fair value of investments directly held by CPP Investments and its investment holding subsidiaries, including valuation techniques used to determine their fair values and the ranges and weighted averages of unobservable inputs used in the calculation of their fair values.

While investment holding subsidiaries are classified as Level 3 given the nature of their underlying holdings, certain investments held by these subsidiaries are based on quoted prices in an active market (Level 1) or are valued using observable inputs (Level 2). These amount to \$16,628 million (March 31, 2024 - \$11,286 million) and \$48,806 million (March 31, 2024 - \$43,395 million), respectively. Refer to Note 2.2 for further details on Level 1 and Level 2 investments relating to investment holding subsidiaries.

¹ Primarily includes investment properties.

² Primarily includes deferred tax liabilities related to investments.

³ May include certain recently acquired investments held at cost, which approximates fair value.

⁴ For each instrument category as presented in the Condensed Interim Consolidated Schedule of Investment Portfolio, the range of input values represents the highest and lowest inputs used to value the investments, whereas the weighted average of the input values is calculated based on the relative fair values of the investments. The diversity of investments reported within each category, such as the geographic location and industry sector of the investments, may result in certain ranges of inputs being wide and unevenly distributed across the range.

⁵ Certain comparatives have been reclassified to conform to the current period's presentation.

(Unaudited)

2.6 Sensitivity analysis of valuations using unobservable inputs

Significant changes in any of the above unobservable inputs would result in a significantly higher or lower fair value measurement. The interrelationship of significant unobservable inputs and fair value measurement for the most significant key inputs identified in the table above is as follows:

- An increase (decrease) in the EBITDA multiple will result in a higher (lower) fair value.
- An increase (decrease) in the discount rate and terminal capitalization rate will result in a lower (higher) fair value.

The fair values of the investments classified within Level 3 of the fair value hierarchy in Notes 2.1 and 2.2 are based on accepted industry valuation methods that may include the use of estimates made by Management, appraisers or both where significant judgment is required. The use of valuation methods based on reasonable alternative assumptions could have a significant impact on the resulting fair values.

With all other variables held constant, the use of reasonable alternative assumptions, such as a decrease in EBITDA multiples and an increase in discount rates and terminal capitalization rates, would result in a decrease of \$9,300 million (March 31, 2024 - \$10,400 million) in net assets. Conversely, an increase in EBITDA multiples and a decrease in discount rates and terminal capitalization rates would result in an increase of \$10,200 million (March 31, 2024 - \$11,700 million) in net assets. This sensitivity analysis is subject to the exercise of judgment and excludes investments where fair values are provided by investment managers as the underlying assumptions used are not available to CPP Investments.

(Unaudited)

3. Derivatives

¹ Net investments excludes net corporate liabilities of \$95 million (March 31, 2024 - net corporate liabilities of \$232 million), which is comprised of Cash and cash equivalents held for operating purposes, Premises and equipment, Other assets, and Accounts payable and accrued liabilities.

6. Risk management

CPP Investments manages investment risks in accordance with the Risk Policy (Policy). This Policy establishes accountability of the Board of Directors, the various committees, including the Risk Committee, and departments to manage investment-related risks. The Policy is updated and approved by the Board of Directors at least once every fiscal year, and contains risk appetite (in the form of limits, statements and targets) and risk management provisions that govern investment decisions in accordance with CPP Investments' mandate. Effective April 1, 2024, the Board of Directors approved changes to certain investment risk measures which are further described in Note 6.1 and 9.1.

(Unaudited)

6.1 Total fund risk

A suite of risk measures is used within CPP Investments to monitor and assess the risk profile of the base CPP Investment Portfolio and the additional CPP Investment Portfolio (collectively the Investment Portfolios). Regular risk reports are provided to senior management and the Board of Directors to support the governance of the various dimensions of risk to which the Investment Portfolios are exposed.

Key investment risk measures include:

- Market risk: The target level of market risk, expressed in terms of an equity/debt risk equivalence ratio, which is the proportion of
 equity (versus debt) in a simple two-asset reference portfolio that would give the same market risk and credit risk as that of the
 applicable Investment Portfolio. The target level of market risk of the base CPP Investment Portfolio is currently set at 85%/15%,
 while the additional CPP Investment Portfolio target level is set at 55%/45%.
- Potential investment loss: The loss of the Investment Portfolios over a one-year horizon is not expected to exceed the established limit 19 times out of 20.
- Liquidity and leverage risk measures, which are further described in Note 9.

The monitoring of adherence to investment risk limits is conducted independent of the investment departments by the Risk department, reporting to the Chief Risk Officer, using both industry standard and internally developed risk models. The tables below provide a summary of the key investment risk measures of the Investment Portfolios.

| | | As at December 31, 2024 | As at March 31, 2024³ |
|---|----------|----------------------------|--------------------------|
| | Limit | base CPP | base CPP |
| Market risk ¹ | 80 – 90% | 83% | 82% |
| One-year potential investment loss ^{1,2} | 14 – 18% | 17% | 16% |

| | | As at December 31, 2024 | As at March 31, 2024³ |
|---|----------|----------------------------|--------------------------|
| | Limit | additional CPP | additional CPP |
| Market risk ¹ | 50 – 60% | 52% | 52% |
| One-year potential investment loss ^{1,2} | 10 – 13% | 12% | 11% |

¹ Effective April 1, 2024, the measurement methodologies for the market risk and one-year potential investment loss measures were revised. Accordingly, the Board approved revised limits for the one-year potential investment loss measure from 21% to 14%-18% for the base CPP Investment Portfolio and from 15% to 10%-13% for the additional CPP Investment Portfolio.

² Percentage of investment value.

³ Certain comparatives have been updated to conform to the current period's presentation.

7. Market risk

Market risk is the risk that the fair value of an investment or investment liability will fluctuate because of changes in market prices and rates. Market risk includes equity risk, interest rate risk, credit spread risk and currency risk.

7.1 Equity risk

Equity risk is the risk that the fair value of an investment or investment liability will fluctuate because of changes in equity prices, which is a significant source of risk of the Investment Portfolios.

7.2 Interest rate risk

Interest rate risk is the risk that the fair value of an investment or investment liability will fluctuate because of changes in market interest rates. The Investment Portfolios are exposed to interest rate risk primarily through holdings of fixed income securities, certain investment liabilities and interest rate derivatives.

7.3 Credit spread risk

Credit spread risk is the difference in yield on certain securities compared to a comparable risk-free security (i.e., government issued) with the same maturity date. Credit spread risk is the risk that the fair value of these securities will fluctuate because of changes in credit spread. With all other variables held constant, an increase in credit spread rates would result in a decrease in investments.

7.4 Currency risk

The Investment Portfolios are exposed to currency risk through holdings of investments or investment liabilities in various foreign currencies. Fluctuations in the relative value of foreign currencies against the Canadian dollar can result in a positive or negative effect on the fair value or future cash flows of these investments and investment liabilities.

(Unaudited)

7.4.1 Currency risk exposures

The net currency exposures after allocating foreign currency derivatives, in Canadian dollars, are as follows:

| (CAD millions) | As at December | 31, 2024 | As at March 31, 2024 | | | | | |
|------------------------|----------------|-------------------------|----------------------|------------|--|--|--|--|
| Currency | Net exposure | % of total ¹ | Net exposure | % of total | | | | |
| U.S. dollar | \$ 450,030 | 64 % | \$ 367,899 | 58 % | | | | |
| Euro | 40,719 | 6 | 34,895 | 6 | | | | |
| Indian rupee | 15,992 | 2 | 15,962 | 3 | | | | |
| Japanese yen | 14,888 | 2 | 24,774 | 4 | | | | |
| Other | 29,219 | 5 | 55,736 | 8 | | | | |
| Total foreign exposure | 550,848 | 79 | 499,266 | 79 | | | | |
| Canadian dollar | 148,803 | 21 | 133,333 | 21 | | | | |
| Total | \$ 699,651 | 100 % | \$ 632,599 | 100 % | | | | |

¹ May not reflect actual percentage of total due to rounding.

8. Credit risk

Credit risk represents the potential loss of investment value due to direct or indirect counterparty exposure to a defaulted entity and/or financial losses due to deterioration of an entity's credit quality. The Investment Portfolios' credit risk arises primarily through its investments in non-investment grade entities. The carrying amounts of these investments as presented in the Condensed Interim Consolidated Schedule of Investment Portfolio represent the maximum direct credit risk exposure at the Condensed Interim Consolidated Balance Sheet date.

8.1 Credit value-at-risk

Credit risk is monitored using a measure for losses due to defaults and credit rating migration. A Monte Carlo simulation that incorporates likelihood of default, credit rating migration and recovery in the event of default for underlying investments is adopted to quantify this dimension of risk. Credit value-at-risk, at a 95% confidence level, implies there is a 5% chance that the underlying investments in the Investment Portfolios will lose more than the amounts shown below, expressed as a percentage of each Investment Portfolio, in any given year due to default and credit migration risk.

| | As at | December 31, 2024 | / | As at March 31, 2024 |
|----------------------|----------|-------------------|----------|----------------------|
| | base CPP | additional CPP | base CPP | additional CPP |
| Credit value-at-risk | 3.5% | 2.4% | 3.3% | 2.3% |

9. Liquidity and leverage risk

9.1 Liquidity risk

Liquidity risk is defined as the risk of incurring unacceptable losses while obtaining the funds needed to (i) meet payment obligations as they become due, (ii) fund new investments or (iii) rebalance the portfolio in periods of stress.

The liquidity coverage ratio measures the amount of available liquid securities relative to CPP Investments' investment obligations and obligations to transfer funds to CPP over various time horizons including any 1-month period.

| | Limit | As at December 31, 2024 | As at March 31, 2024 ² |
|---------------------------------------|-------|-------------------------|-----------------------------------|
| Liquidity coverage ratio ¹ | 1.0x | 5.8x | 5.0x |

¹ Effective April 1, 2024, the Board approved changing the time horizon for the Liquidity coverage ratio limit from 10 days to 1 month.

² Certain comparatives have been updated to conform to the current period's presentation.

Liquidity risk is impacted by the use of various forms of leverage which CPP Investments uses to manage certain other risks and enhance fund returns. The use of leverage is governed directly through leverage measures as outlined in Note 9.2.

Liquidity risk is managed by investing certain assets in a liquid portfolio of publicly traded equities, money market securities and marketable bonds. It is supplemented by the ability to raise funds through activities such as the issuance of unsecured debt, including term debt, as well as transacting in securities sold under repurchase agreements. CPP Investments also maintains unsecured credit facilities to meet potential liquidity requirements. There were no credit facilities drawn as at December 31, 2024 and March 31, 2024.

| (CAD millions) | As at December 31, 2024 | As at March 31, 2024 |
|----------------------------------|-------------------------|----------------------|
| Unsecured credit facilities held | \$ 1,500 | \$ 1,500 |

(Unaudited)

9.2 Leverage risk

Leverage risk is the risk that excessive financial obligations heighten market and liquidity risks during periods of stress. Leverage risk is monitored by recourse and limited recourse measures. Recourse leverage is a notional-based measure with direct recourse to CPP Investments, which represents the net amount of borrowed funds and synthetic financing used by CPP Investments to increase its investment exposure. Limited recourse leverage generally refers to the debt issued through CPP Investments' investment holding subsidiaries that limits recourse to specific investments held within these subsidiaries. The recourse leverage measures are as follows:

| | Limit | | As at December 31, 2024 | As at March 31, 2024 | | | |
|--------------------|-------|---|-------------------------|----------------------|--|--|--|
| Recourse leverage: | | | | | | | |
| base CPP | 45 | % | 36.5 % | 31.6 % | | | |
| additional CPP | 30 | | 23.2 | 19.2 | | | |

As at December 31, 2024 recourse and limited recourse leverage amounted to \$248,366 million and \$5,108 million, respectively (March 31, 2024 – \$194,829 million and \$5,812 million, respectively).

9.3 Terms to maturity

9.3.1 Terms to maturity of non-derivative investment liabilities held directly by CPP Investments

| | | | | | | Terms | to | maturity | | | | | | |
|--|----|------------------|----|-----------|----------------------|------------------|----|----------------|--|---|----|-------------------------------|---|--|
| | | | | | As at March 31, 2024 | | | | | | | | | |
| (CAD millions) | | Within 1 year | | | 6 to 10 years | Over 10 years | | | Weighted average interest rate ³ | | C | Total ontractual amount | Weighted average interest rate | |
| Securities sold under repurchase agreements | \$ | 95,194 | \$ | - \$ | - \$ | - | \$ | 6 95,194 | 3.6 | % | \$ | 67,791 | 3.7 % | |
| Debt financing liabilities | | 7,736 | | 45,738 | 15,172 | 6,569 | | 75,215 | 2.8 | | | 72,349 | 2.6 | |
| Cash collateral received on securities lent | | 5,626 | | - | - | - | | 5,626 | n/a | | | 5,197 | n/a | |
| Securities sold short ^{1,2} | | 19,828 | | - | - | - | | 19,828 | n/a | | | 26,229 | n/a | |
| Total | \$ | 128,384 | \$ | 45,738 \$ | 15,172 \$ | 6,569 | \$ | 195,863 | 2.8 | % | \$ | 171,566 | 2.5 % | |

¹ Considered repayable within one year based on the earliest period in which the counterparty could request payment under certain conditions.

² Includes equities sold short for which the average interest rate is not applicable.

³ Total weighted average interest rate excludes certain investment liabilities for which the average interest rate is not applicable.

9.3.2 Terms to maturity of non-derivative investment liabilities held by investment holding subsidiaries

The following table presents supplemental information relating to the terms to maturity of investment liabilities held by investment holding subsidiaries.

| | | | | | Terms t | to maturity | | | | |
|---|----|------------------|----------|-----------|------------------|--------------------------------|---|--------------------------------|---|--|
| | | | As | at Decemb | er 31, 202 | 4 | | As at March 31, 2024 | | |
| (CAD millions) | | Within 1 year | | | Over 10 years | Total contractual amount | Weighted average interest rate | Total contractual amount | Weighted average interest rate | |
| Loans sold under repurchase agreements | \$ | 246 \$ | - \$ | - \$ | - | \$ 246 | 7.0 % | \$ 230 | 7.9 % | |
| Debt financing liabilities | | 1,382 | 1,924 | 861 | 109 | 4,276 | 6.8 | 4,960 | 7.3 | |
| Total | \$ | 1,628 \$ | 1,924 \$ | 861 \$ | 109 | \$ 4,522 | 6.8 % | \$ 5,190 | 7.2 % | |

10. Reconciliation of debt financing liabilities

The following table provides a reconciliation of debt financing liabilities issued by CPP Investments arising from financing activities:

| | For | For the nine months ended December 31, | | | | | | | | |
|---|-----|--|----------|--|--|--|--|--|--|--|
| (CAD millions) | | 2024 | 2023 | | | | | | | |
| Balance, beginning of period | \$ | 67,898 \$ | 53,456 | | | | | | | |
| Proceeds | | 11,915 | 16,335 | | | | | | | |
| Repayments | | (11,350) | (10,002) | | | | | | | |
| Non-cash changes in fair value ¹ | | 3,252 | 408 | | | | | | | |
| Balance, end of period | \$ | 71,715 \$ | 60,197 | | | | | | | |

¹ Includes foreign exchange losses of \$2,155 million (December 31, 2023 – gains of \$564 million).

11. Collateral

11.1 Collateral held and pledged directly by CPP Investments

The fair value of collateral held and pledged directly by CPP Investments was as follows:

| (CAD millions) | As at December 31, 2024 | As at March 31, 2024 |
|---|----------------------------|-------------------------|
| Third-party assets held as collateral on ¹ : | | |
| Reverse repurchase agreements | \$ 18,481 | \$ 10,809 |
| Derivative transactions | 882 | 469 |
| Securities lent ^{2,3} | 7,988 | 6,654 |
| Total | \$ 27,351 | \$ 17,932 |
| Own and third-party assets pledged as collateral on: | | |
| Repurchase agreements | (93,804) | (66,822) |
| Securities borrowed ^{3,4} | (23,577) | (28,000) |
| Derivative transactions | (11,304) | (15,147) |
| Debt financing liabilities | (1,241) | (1,113) |
| Total | \$ (129,926) | \$ (111,082) |

¹ The fair value of collateral sold or repledged as at December 31, 2024 was \$4,845 million (March 31, 2024 - \$3,503 million).

² The fair value of securities lent as at December 31, 2024 was \$7,785 million (March 31, 2024 - \$6,589 million).

³ Cash collateral payable on the Condensed Interim Consolidated Balance Sheet of \$5,626 million (March 31, 2024 - \$5,197 million) consists of collateral receivable of nil and collateral payable of \$5,626 million that qualify for netting (March 31, 2024 - nil and \$5,197 million, respectively).

⁴ The fair value of securities borrowed as at December 31, 2024 was \$18,739 million (March 31, 2024 - \$23,430 million) of which \$17,749 million (March 31, 2024 - \$23,048 million) was used for short selling activity.

11.2 Supplemental information on collateral relating to investment holding subsidiaries

The fair value of collateral held and pledged by investment holding subsidiaries was as follows:

| (CAD millions) | De | As at March 31, 2024 | | |
|---|----|-------------------------|----------------|--|
| Third-party assets held as collateral on ¹ : | | | | |
| Reverse repurchase agreements | \$ | 179 | \$ 167 | |
| Total | \$ | 179 | \$ 167 | |
| Own and third-party assets pledged as collateral on: | | | | |
| Repurchase agreements | | (397) | (399) | |
| Securities borrowed ^{2,3} | | (19,805) | (17,367) | |
| Derivative transactions ³ | | (1,878) | (2,130) | |
| Private equities ⁴ | | (13,580) | (12,474) | |
| Debt financing liabilities | | (9,264) | (10,284) | |
| Total | \$ | (44,924) | \$ (42,654) | |

¹ The fair value of collateral sold or repledged as at December 31, 2024 was nil (March 31, 2024 - nil).

² The fair value of securities borrowed as at December 31, 2024 was \$11,616 million (March 31, 2024 - \$10,294 million), which were all used for short selling activity.

³ The cash collateral at the prime brokers may be used for securities borrowed and derivatives transacted by brokers.

⁴ Represents securities pledged as collateral on loan borrowings of the investees.

12. Commitments

CPP Investments and its investment holding subsidiaries have entered into commitments related to the funding of investments. These commitments are generally payable on demand based on the funding needs of the investment subject to the terms and conditions of each agreement. As at December 31, 2024, the unfunded commitments for CPP Investments and its investment holding subsidiaries totalled \$1,179 million (March 31, 2024 - \$994 million) and \$61,278 million (March 31, 2024 - \$57,000 million), respectively.

13. Guarantees

As part of certain investment transactions, CPP Investments and its investment holding subsidiaries agreed to guarantee, as at December 31, 2024, up to \$141 million (March 31, 2024 - \$190 million) and \$7,000 million (March 31, 2024 - \$7,011 million), respectively, to other counterparties in the event certain investee entities default under the terms of loan and other related agreements, or fail to perform under specified non-financial contractual obligations.

14. Base CPP and additional CPP

The following note discloses the net assets, net investments and net income of CPP Investments' base CPP account and additional CPP account.

14.1 Changes in net assets

The accumulated transfers from/to the CPP and its two parts, the base CPP and additional CPP, as well as their accumulated net income (loss) since inception, are as follows:

| | | | | For the | thr | ee months | enc | ded | | | |
